

TESTIMONY OF DORIS WEHLER ABOUT AIRPORT RUNWAY EXTENSION

Date: 11/27/18

I have three things to say about the airport runway extension.

The first is that I am in favor of the runway extension because several large businesses in Wilsonville chose our city as their home because of needed proximity to the airport, and this extension will improve safety.

The second is that the City of Wilsonville advertised this meeting as the "Aurora State Airport Expansion." That title is misleading, hopefully not for the purpose of stirring up opposition from Charbonneau residents. This hearing is not about an expansion of the airport, simply an extension of the runway.

Third, I believe all testimony tonight will be forwarded to those making the final decision. I sincerely hope my testimony is included.
