November 23 2018

Dear City of Wilsonville,

Thank you for taking the time to look into the planned 1000 foot runway lengthening improvement at the Aurora Airport.

Please register my strong support for this runway lengthening and for the substantial increase in safety it will provide to the aircraft operating off the Aurora Airport and to the surrounding areas. I am a corporate pilot whose livelihood depends on how much business I can generate from aircraft owners based at UAO.

When the weather gets crummy (as is common during winters in the PNW) I feel better knowing I can bring my passengers into and out of an airport with a larger margin of runway given versus needed. And In the hot summer months when doing performance calculations on the many jets based here the added runway length will give both a better safety margin during an emergency as well as putting more money in our local businesses, Lynx FBO and surrounding Wilsonville/Aurora/Canby, pockets than up north in Portland if these jets need to use the Portlands longer runway.

v/r,

Nicholas John Razzeto
