Subject: Against Aurora Airport Expansion

To Whom It May Concern,

My wife and I own a farm next to the Aurora Airport. We are against the airport expanding for the following reasons:

1. There already is a major traffic problem over the Boone bridge and will get worse with increased trucking traffic. Emergency services will be hindered. Commute time will be longer. Increased accidents.
2. Noise pollution over our house which is already deafening.
3. Air pollution effecting sufferers of asthma, COPD, fetus lung development. Fumes smells. There are nearby schools.
4. Soil and water pollution from runway run off effecting crops, water sheds and aquatic life.
5. Increased potential for crashes in residential areas, which has happened in the past.
6. Menacing livestock, which has happened by increased helicopter traffic.
7. Endangerment of the loss of prime farmland, leading to a chain reaction of increased development down the Willamette Valley.

Sincerely,

Richard C. Langsen, LCSW and Nicole Robel  
14720 Albers Way NE  
Aurora, OR 97002

503-678-5985

Residents for 30 years. Farm in production since 1950.
