Subject: Fw: Living by the "Aurora Airport".....Testimony Topic.

I hope you got the 2nd email I sent a little bit ago about the Jet Noise. Yes. It's awful at times and they've flown right over our home at five or six in the AM, and almost hit our Tall Catalpa's around our Home. So discourteous and It would get far worse for all of us. We are testimony because we live in the thick of it, and it would get so much worse for ALL of US.

Thank You for giving us the opportunity to say something. We've all felt like we're being pushed out of this and we don't have a voice to say anything. Bruce and I have lived here for about 40 years. We've stayed here for a reason. Location, Great Neighbors, Good Air, Space, Not too noisy (At least it used to be). And we really don't want it getting worse. We don't want our property devalued and our Taxes to go up for something we've fought for to keep out of our area for so long. We all ready suffer from the Canby Wilsonville traffic merging toward the Boone Bridge and the sounds of ambulances and sirens are sometimes crazy. Yes, we've seen those changes and the Airport Extension would make it 100 fold. We can't imagine the nightmare. We don't want it and can't understand why they can't take it to Salem. Why they tried to sneak it past us. But, we're just Middle Class and People with Deep Pockets always try to Blindsight the Middle Class and slip their agenda right thru.

And yes. the impacts to prime farmland would be devastated. Our lives and property would be forever changed in such a negative way. We really should have the last say on this since this is bringing it in OUR BACKYARDS!! OMG.

And yes, it would help somewhat for the Governor to pull back the grant application to FAA immediately until these issues are addressed. Gerda, my next door neighbor and I will be there tonight with pads in hand and all ears and hopefully we will be part of the support.

Thank You so Much for Listening. We appreciate this.

Regards

Sherry Allmaras

Subject: Did I mention the Jets Flying over??

And, yes they do. Sometimes at five or six in the morning. It's awful and it wakes my Grandkids up when they stay with us on the weekends. Along with Bruce and I and I'm sure the whole neighborhood!!

Thanks Again for Listening,
Sherry Allmaras
